DNA

**hands build houses
hearts build homes**

We are an experiential learning company growing extraordinary people impacting communities with a **heart of service**.

activating your ...

... to start impacting the world

what are **impact experiences**?

Impact experiences are specially curated programmes providing participants with an environment of self-discovery, personal and team development through the initiative of creating genuine social impact.

how it benefits you

real-life experience

Directly apply learnings to real world situations

challenging environment

Motivating environment of growth & learning

ripple out positivity

Connect with people working together towards a noble goal

12,000*

ORANG ASLI FAMILIES LIVE IN UNSAFE HOUSING CONDITIONS

who is epic homes?

The EPIC Homes movement aims to build relationships through the act of building homes, bridging the gap between the rural and urban divide.

This initiative provides a platform for people of different walks of life to engage with one another.

This was Pak Cihong's House. He lived in this condition for 2 years, without proper shelter, one of our basic needs. He was just 1 of 12,000 around Malaysia.

impact to date

 **100+**
homes

 **10+**
villages

 **5,000+**
builders

how will this benefit...
